

Road Report April 2024

- Completed Work in March 2024
- Work in Process/Scheduled
- Thank you
- Decisions and Comments

Completed Work

- Road grading operations on various Township roads
- Snow plowing operations started 3-25 through 3-27 after spring snowstorm of over 16" of heavy wet snow. Soft gravel roads and shoulders made it very difficult to plow, however our contractors adapted and did a great job

Grading 2024	Road Name	February	March	
1E	Hill Street Road	2/7 Partial 2/21&22		
2E	Elm Tree Road	21-Feb

 - Calcium chloride on various Township Roads
 - Culvert replacement
 - Ditch cleaning

**Thank you to our professional
contractors.**

**Their hard work and cooperation is
greatly appreciated!**

-
- Kiminski Paving
 - Sandberg Construction

Decisions and Comments

-
- Approve quote for Sturgeon Island Road paving
 - Approve quote for calcium chloride treatment
 - Approve ROW application from MSA and time for Ron out IT to put this on our website
 - Working on a solution for the management of the Township pit
 - It was stated that we payed 3 times in a year for one culvert installation. That is simply not true. A culvert that was replaced in November of 2022 and was hit by a vehicle and destroyed it. It was then replaced in the summer of 2023 only because of the damage.
 - Old culverts pushing up. None of the new ones correctly installed have any issues

It's nice to be important, but it's more important to be nice.
