Completed Work

- Road work will resume in Spring of 2025
- Plowing, sanding, and salting operations took place.

• November 1, 2024 to April 30, 2025. If services are provided outside of these dates, only the hourly rates shall apply. Contractor shall use shoes on the plows on gravel roads until there is a base of hard pack snow to help reduce gravel loss. When gravel road conditions become soft, shoes must be used. Contractor shall follow the direction of MN Statutes 160.215 (see attached) with regards to sand and salt use. Contractor shall dispatch when at least 3” of snow has fallen using best judgement if it is still snowing. Certain conditions may demand dispatching with collaboration with Windemere Road Supervisor or Road Manager.

MINNESOTA STATUTES 2023

160.215 SNOW REMOVAL; SALT AND CHEMICALS RESTRICTED.

In order to:

(1) minimize the harmful or corrosive effects of salt or other chemicals upon vehicles, roadways, and vegetation;

(2) reduce the pollution of waters; and

(3) reduce the driving hazards resulting from chemicals on windshields;

road authorities, including road authorities of cities, responsible for the maintenance of highways or streets during periods when snow and ice are prevalent, shall utilize such salt or other chemicals only at such places as upon hills, at intersections, or upon high-speed or arterial roadways where vehicle traction is particularly critical, and only if, in the opinion of the road authorities, removal of snow and ice or reduction of hazardous conditions by blading, plowing, sanding, including chemicals needed for free flow of sand, or natural elements cannot be accomplished within a reasonable time.

A scenic sunset over a lake with snow in the foreground. The sky is filled with dramatic, dark clouds, with a bright orange and yellow glow from the setting sun reflecting on the water. The foreground shows snow-covered ground with some dry grasses and reeds.

It's nice to be important, but it's more important to be nice.
